

IAN JUDSON BIOGRAPHY

IAN JUDSON

Ian brings a specialist focus on the execution of business plans and the documentation of organizational strategy to assist clients in establishing and implementing strategic plans for their companies and organizations. He also offers high level business experience having worked closely from both within and as a consultant to a number of major professional services organizations.

Ian serves as a mentor and coach to many clients while pursuing his passion in advising small to medium size businesses. He became a member of the Gravitas Impact coach organization and then a 7 Attributes of Agile Growth® Certified Business Coach in 2009 and regularly runs Strategic Planning Sessions and meetings within his client base. By applying the 7 Attributes of Agile Growth®, Ian assists businesses to better understand their financial position and cash flow story with the goal of providing the executive team with a number of options to ultimately achieve the maximum value from their business.

Executive Summary:

Ian Judson is co-owner of JudsonKoman, an accounting business that uses modern financial analytical tools to help business owners and investors better understand their financial position and explore alternatives to maximize growth. By combining over 25 years of experience in the financial management field with the 7 Attributes of Agile Growth® framework, he has assisted a number of growing businesses in scaling up their company.
